ARE YOU A BUCKET FILLER OR BUCKET DIPPER?

Everyone has an invisible bucket that they carry around with him or her all day. This bucket holds all their feelings. One who spreads and encourages others, spreads love and happiness throughout the world, one who does good is a bucket filler. They fill other people's buckets with good feeling and they also fill their own because they have good filling for someone else's bucket. A bucket dipper does things that make others feel bad (showing disrespect, over reacting, ignoring).

Now on an A-4 sheet draw margins on all four sides. Then, draw two buckets, colour them nicely and label one bucket with bucket filler and other with bucket dipper as shown below in the picture. What all feelings you carry within yourself put all those feelings in respective buckets, be honest while filling your buckets.
